### What Will You Sell?

Your own products if you wish. However with the help of RSS feeds included in your site, your customers can buy anything from ebooks to health and fitness items to household goods. Feeds from Amazon with full descriptions,pictures and prices means you can offer practically anything for sale on your website.

You will also sell clicks on your site? "Sell clicks?" you ask? Yes, in the form of the affiliate programs AdSense, ClickBank and Ebay. You'll essentially rent out part of your web real estate to Google's AdSense program, ClickBanks affiliate system and Ebay's Auction site..

One Click on the Keywords on the left column of your site will send all the Clickbank 11000+ Products relevant to that keyword to your site, plus the relevant Auction items from Ebay. And any of your own products or affiliate links you have placed on that page yourself. With the relevant Amazon products as well! Don't worry it's easy.

They'll search your site, see the keywords and add the feeds automatically. AdSense does the same via RSS again, placing complimentary ads to your site. Each time a visitor clicks on an AdSense or eBay link or buys a product from your site, you make money.

Nothing to ship, no customers to satisfy, just money to spend. Now you know why you should own your own eBay-AdSense-Clickbank & Amazon Website .
