

Ozzy Osbourne Ozzmosis Heavy Metal Music CD Review

Ozzmosis is the latest Heavy Metal CD released by the extremely talented Ozzy Osbourne who once again has delivered a brilliant collection of tracks. I'm confident Ozzy Osbourne fans, and Heavy Metal fans alike will be pleased with this one.

It's a rare day indeed that I get a CD from an artist that I can truthfully say does not have a bad track in the bunch. I'm more than happy to announce that's exactly what I must say about this one. There simply isn't a bad one in the bunch. No fillers here at all.

These days it's a very rare CD on which every single song is good or better than the one before it. This CD is certainly one of those rare CDs.

I'm of the opinion that Ozzmosis is certainly Ozzy Osbourne's best work in a few years. A totally enjoyable CD and an outstanding release. What I call must have music. I give it two thumbs up because it's a collection that even the casual Heavy Metal fan can appreciate and enjoy.

While this entire album is outstanding the truly standout tunes are track 1 - Perry Mason, track 8 - My Little Man, and track 9 - Mr Jekyll Doesn't Hide.

My Bonus Pick, and the one that got Sore [...as in "Stuck On REpeat"] is track 5 - See You On The Other Side. Good stuff!
