

What Is the Number 1 Colour Used in Bathroom and Kitchen Renovations?

Despite all of the brilliant colours now available on the market for bathrooms and kitchens, the vast majority of all home renovators remain with neutral colour tones.

According to Elvio DiZane, Group Managing Director for Barry's The Home Improvers, "Kitchen renovations lean towards whites, creams and oyster tones with splashes of warm chocolate tones to lift the design". "One of the reasons for this is that they are looking at the resale potential of their properties.

Neutral colours don't date a property as much as seasonal colour ranges such as lime green and bright orange. Neutral colours also tend to be better value for money, as they have higher production runs and therefore a lower cost," said Elvio. The hottest trends in [kitchen design](#) include Caesar Stone bench tops, stainless steel appliances and glass splashbacks.

Designer "Alfresco" Outdoor kitchens are also gaining popularity with home renovators. The same can be said of Laundry design whilst for bathroom renovations; white with chrome bathroom accessories is still the leading look Barry's Design Consultants have helped people with their kitchen, bathroom, laundry and wardrobe renovations for over 35 years and are experts in the latest design trends.

Over the years, many people have embraced Do-It-Yourself (DIY), however to ensure that regulation and legislation are met, Do-It-For-Me is an ever growing market segment. Our Barrys designers help customers to get exactly the right design for their property to make the most of the space they have whilst meeting all the standards' requirements.

We help people get designer bathrooms and kitchens without the high price tag. And now Barry's have developed a design and supply facility for "Alfresco" outdoor kitchens and cabinetry made from Barry's 'X-L8' which is guaranteed for 10 years – OUTSIDE.
