

Review of the Silk CD Tonight

Tonight is the latest release from Silk, and is another winner from this talented group.

Silk have been a heavy hitters in the Pop genre for quite some time now and Tonight is an excellent illustration as to why.

One of the nicer things about a CD like this is with this level of talent even if Pop isn't your favorite style you still can't help but appreciate the greatness of the musicians.

Overall Tonight is an outstanding release. What I call must have music. I give it two thumbs up and is most definitely a worthy addition to any Pop collection. Truly an outstanding Pop CD. One of those that is completely void of any wasted time, as each track is simply superb.

While this entire album is really very good some of my favorites are track 5 - Meeting In My Bedroom, track 7 - Baby Check Your Friend, and track 17 - The Vaughn Harper Interview

My Bonus Pick, and the one that got Sore [...as in "Stuck On REpeat"] is track 1 - The Return. What a nice track!
