

## Match Round Serving Bowl

Match brings pewter accessories handmade by artisans in northern Italy. Using methods that predate the Renaissance and have been passed from one generation to the next, Match artisans fashion pewter into functional objects of warmth and beauty. The hallmarks on each piece are the signatures of their skilled hands.

Founded in 1995, Match was first to introduce Italian pewter to America. Each piece of Match pewter is a testament to the timeless values of craft and authorship often overlooked in this age of speed and convenience. The classic forms harmonize with both traditional and modern settings.

[Match](#) Convivio dinnerware is dishwasher safe. When using a dishwasher, we recommend that you use a low heat setting with a liquid soap. Wash any pewter in extreme temperatures. As with any metal, if you have hard water with a high mineral content we do not recommend using a dishwasher, as elements that may be present in the water could possibly discolor or cause pitting of your pewter. Match Stemware and Barware should only be washed by hand, and should not be presoaked in hot water as a prelude to hand washing.

The ultimate mix and match pattern for you. Four Dinner Plates one of each pattern. Leaves, Letters, Links and Circuit. The ultimate mix and match set for you. Use it with your existing white dinnerware...or buy this set in multiples for your next buffet dinner party. Please purchase online
