

## Review of the Vivian Green CD Love Story

Love Story is the latest Pop CD released by the richly talented Vivian Green who once again has delivered a brilliant collection of tracks. I'm confident Vivian Green fans, and Pop fans alike will be pleased with this one.

Love Story literally grabs your attention right out of the gate with Wishful Thinking and doesn't let go until the very last note of the very last song Keep On Going, which is another great track by the way.

Vivian Green possesses the characteristic of being able to win you over with her talent alone. The kind of artist I really enjoy listening to.

I give Love Story my highest recommendation. It just plain belongs in any serious music collectors collection regardless of genre preference.

While the entire CD is outstanding some of my favorites are track 4 - What Is Love?, track 8 - No Sittin' By The Phone, and track 14 - Keep On Going

My Bonus Pick, and the one that got Sore [...as in "Stuck On REpeat"] is track 1 - Wishful Thinking. This is a great track!
