

Gift Ideas of Anniversary

These delightful little bowls are the ideal gift for people who like a place for everything. Perfect for storing earrings in or use it at your desk for paper clips. They are an ideal gift for anyone who likes storage on a small scale or simply as a lovely wee bowl. Gift products will consist of inspirational messages and images inscribed on the following items: candles & candleholders, Christmas gifts, plates, desk accessories, figurines, frosted statues, garden plaques, garden statues, glow in the dark crucifixes, indoor fountains, lamps & lighting, Mother's Day gifts, nightlights, picture frames, wall decor, sun catchers, vases, wind chimes, wood carvings.

Although the plates and bowls are created to be functional, a majority are sold for display. (Plate holders & stands can be found at craft stores). The reverse of these pieces are equally attractive. All the gold is seen from the reverse and the pieces are very smooth, not cut-up images as found on "decoupage plates". The Bowl is a great size for a centerpiece. The plates are nice in multiples hung on the wall or popular as dessert sets. The coasters work equally well as a wine bottle coaster. Many people use one coaster with a bottle of wine as a hostess gift. All accessories come with a card explaining some history and the care of the item, making a very nice presentation.

The Prints are also presented nicely and are ready for [gift](#) giving (Showers, Birthday, Weddings, etc.). They come in a standard size, making finding a frame to match the décor, very simple. The Apples and Honey set is for the Jewish New Year celebration.

These gifts are elegant and truly special. They make quite a statement wherever they are used and displayed. It is very unusual to find gifts with this amount of both yellow and white gold. I wanted to create gifts that would really stand apart, I hope that you agree that they do. Please purchase online <http://www.etabletop.com>
