

Data Entry India Digitization online data capture, email outsourcing & Multimedia Presentations

As the world of business is becoming very dynamic and fast paced, the accessibility of accurate, detailed information is a necessity. Every day, more and more facets of a business must move online to stay fresh and viable. This shift forces many companies to transfer existing paper information into electronic formats that are easily accessible to employees and customers. Often, this requires manually transferring data from one system/format to the other, a time-consuming and lengthy process.

Data entry is a growing burden on existing organizational resources, so why to do this unglamorous job by own when there are alternative outsourcing solutions present. By taking advantage of Suntec's domain knowledge, quality processes and world-class infrastructure situated in New Delhi, India, you will be able to perform better while we allow you to concentrate on your core competencies.

By serving our global customers for more than six years in the field of data entry/data processing services, we can manage various aspects of your business requirements by leveraging our data entry expertise. We have the capacity and knowledge to process any type of data, typed or handwritten, to and from any format like doc, text, PDF, spreadsheets or databases.

At Suntec, our team of reliable and experienced data entry professionals can convert your paper or scanned files into the digitized or electronic format effectively with highest level of data accuracy guaranteed. We can remotely log on to your systems to do real-time data upload or using a variety of delivery mechanisms like email, secure web-site and CD-Rom.

Join hands with Suntec - Because we are confident that our high quality and accurate data entry/data processing services will make continuous cost savings to your business. Our goal is to respond as quickly as possible to you.
