

Internet Phone Service, Internet VOIP Phone Service

Are you tired of paying heavy bills for international calls? Are you looking for some service which can give you the best sound quality in the lowest possible rate? Are you searching for a service provider which can assist you and take care of your need? You need to know about internet phone service. This would answer all your questions and solve all your problems in international phone calls.

Internet Phone service is some thing which charge you cheaper than your traditional phone service provider and connect you internationally at low prices with high voice quality. Internet Phone service is known as VoIP, broadband phone service etc, all of these are the same, built to fulfill the same purpose and perform similar functions.

To use internet phone service you need to have a broadband internet connection which is essential to avail this Voip service. It provides high speed data traveling which gives you best sound quality. Internet phone service is now creating a revolution in telecommunication world by replacing your traditional wired phone. Yes! You can get rid of your old phone and get hold this new service which allows a unique feature of simultaneous ring which means that your home phone and your mobile phone on which you have got the service ring at the same time. If you pick the mobile phone than your home phone stops ringing. This is quite an exceptional feature of this new technology. Some other characteristics are:

- ?Caller ID
- ?Voice Mail
- ?E 911 calling
- ?Unlimited Talk Time
- ?Call Waiting
- ?3 way Conferencing
- ?Caller ID Blocking
- ?Call Forwarding
- ?Call Waiting Caller ID

As there are many service provider companies rushing in the market and claiming to provide the best service, but there is difference in declaring and offering. Some of the companies don't able to provide good customer convenient services, customers often queue up for hours until some one receive the calls and guide them. Some companies just charge you high price putting you under unknown and unheard taxes.

But Axvoice <http://www.axvoice.com> provide you whatever it advertises, we don't like to put our client in any tension and that is why we are known for our service. You don't need to waste your time to test different services and their features. All you have to do is check our Service Plans and place your order. You will be provided by excellent service because you worth it.
