

## Vacationing In Mexico: Nuevo Vallarta

Villa del Palmar Flamingos is located in Nuevo Vallarta, which is a sister city of Puerto Vallarta. The Mexican vacation rental resort sits right on the water's edge, providing white sand beaches for relaxing and aqua blue waters for keeping cool. Guests staying at the Villa del Palmar Flamingos vacation rental resort will have plenty to do while on the property. Adults can swim in the dual level pool, snorkel, windsurf, take an aerobics class, or indulge in a spa treatment at the resort's European style spa.

Some children will, of course, enjoy many of the "adult" activities but younger children tend to have much more fun hanging out with their peers. That's why, in addition to the activities above, the resort has a special kid's area, kid's pool, and a unique children's program (ages 4 – 12). All of the kid-centric activities are designed to keep children busy having their own kind of fun in the sun. A number of other fun activities that both children and adults will enjoy are available not too far from the resort. The short list of activities includes horseback riding, fishing, boating, parasailing shopping, and golfing.

With all that fun it's easy to work up an appetite and at Villa del Palmar Flamingos, guests have plenty of options on what they want to eat as well. Each vacation rental is furnished with a kitchenette or a full kitchen where guests can cook their own meals—there's a grocery store on the resort premises—or they can always "eat out" at one of the four on-site resort restaurants.

There are a number of Mexico vacation rentals to choose from, especially in the Nuevo Vallarta / Puerto Vallarta area. However, few offer the 4-star quality at half the four-star resort prices like the Villa del Palmar resort vacation rental. Fewer still have so much to do for adults and children on-site. So if you're looking to vacation in Mexico and you want a great deal, Villa del Palmar Nuevo Vallarta is one of the best Mexico vacation rentals you're going to find.
