

Russian bride phenomenon

Everything is quite simple: process of emancipation in the west has caused reassessment social and spiritual values, the woman has ceased to be simple savor a home and the housewife, today for her on the first place - career, children and the husband are on the second place.

Foreign girl will not worry concerning her appearance, they put on so that, first of all, it was convenient for them. They are self-assured and perceive men as equal in rights partners both in family, and in business. In turn, [Russian girls](#) are much less exacting, and very much frequently a limit of dream for many of them is the teetotal husband and fed children. They have time to work, successfully to conduct facilities and and they always look good. And, at last, the most important and a weighty argument for the benefit of [Russian girls](#) - good formation and high intelligence facilitating adaptation in the unfamiliar country and quite often causing pride at foreign men.

Such unique combination of qualities appeared to be so appreciable, that has caused huge interest on the part of lonely men of USA and the Western Europe. Such marriages for a long time were considered to be something outstanding and finally the reasons to search the beloved ones were found for Russian women.

One of the reasons - a demographic situation in the CIS: the quantity of women is much higher than men. One more reason - [Russain girls](#) aspire to provide to themselves and children comfortable conditions of life to get access to "clever" medicine, to live bright and high-grade life, freely to travel and to not reflect on household problems - and in it there is nothing immoral and unnatural. And, at last, worthy men are everywhere - and in the CIS, and abroad.

In conditions of the world integration the modern woman can and should choose not to an attribute "ours - not ours", and to much more essential attributes. Usually it is purposefulness and magnanimity, attention, fidelity and diligence, ability and desire the sense of humour and natural charm, the quivering attitude to the woman, children and the house is good to look at any age, to take care of relatives - these qualities Russian women search for ability and find in the foreign elects.
