

LiquiVida and LiquiGenics - pure balance of natural juices

LiquiVida™ is a power-packed liquid with a high content of organically grown Aloe Vera and a combination of rich antioxidants. Today, many companies produce products from exotic fruits, such as Noni, Mangosteen, Goji and Blueberry, due to their high antioxidant content. Liquidity has brought together all of these powerful antioxidants and added them with Aloe Vera, which is scientifically recognized to be the best delivery system for quicker results. [LiquiVida™](#), which means "Liquid Life", is a literal fountain of youth in a bottle.

The world of science has well-documented studies revealing highly oxygenated cells can better resist disease. Oxygen is essential to good health and is proven to increase energy; help the body prevent disease and better repair itself when injured.

Liquidity's MVM™ has a special process patent (Patent #6,482,942). This process patent dictates the natural extraction of MVM™ from Aloe Vera without using heat or ethanol. This ability to naturally process Aloe Vera is hailed as one of the greatest supplement breakthroughs in the last one hundred years.

Thanks to Dr. Vittori, we now have a natural substitute known as MVM™. MVM™ provides our consumers with the "O-Factor" in an easy to swallow capsule.

LiquiGenics™ emerges as a leader in our world-wide struggle with weight management. It creates a Thermogenic process which helps to naturally increase heat in the body, resulting in yellow fat burned as energy instead of stored as excess weight. When mixed with water, metabolism boosters are formed to initiate and aid in a more rapid weight loss. Adding [LiquiGenics™](#) to good drinking water promotes proper hydration, which is critical for proper fat elimination.

Plus™ is an all- natural energy and endurance formula. Synergistically formulated with 11 whole herbs (no extracts) along with soluble fiber and Chromium Picolinate, Plus™ promotes lean muscle mass and is designed to promote optimum health.* The 11 herbs include: Chromium Picolinate, Gum Karaya, American Desert Herb, Guarana, Korean Ginseng, Bee Pollen, White Willow Bark, Bladderwrack, Gotu Kola, Licorice Root, Reishi Mushroom, Astragalus, Ginger Root, Rehmannia Root
