

The Best Cell Phones according to Surveys

Many sites feature top choices of cell phones in terms of features, physical appearance, specifications and uniqueness. There are a number of lists featuring top 10 cell phones depending upon the target market like top cell phones for or amongst students, businessmen and other market groups. Other lists are based on utility, functionality, sales generated and pricing. The concept of regularly inventing new cell phone models is to introduce to the market advanced technologies, latest features and new choices to suit lifestyles and images.

Some of the Cell Phones currently available in the market that made it to the list of CNET's top 100 gadgets are; Nokia N80 which is named as the Best Camera Phone featuring an impressive 3-megapixel camera, second VGA camera and image editing applications, Nokia 6102 which is classified as the Best Midrange Phone is a flip phone that has basic features designed for people who prefer simplicity amidst the flashy phones in the market, the Best Multimedia Phone is the LG LX5550 which features a 1.3-megapixel camera, 3G support for streaming video, an expandable memory slot and quality sound for music fanatics, the Best World Phone is Sony Ericsson's W600i for its design and rich features - offering multimedia and world phone support that keeps you in touch when you're abroad, MP3 player for entertainment and camera to preserve memories of travel. Other cell phones that made it to the list are Palm Treo 700p which is the Best Smart Phone, LG VX8300 which is the Most Improved Phone, Kyocera KX444 as the Best Basic Phone and Motorola Pebl U6 as the sexiest phone.

Another list available over the internet by fosfor gadgets showcases designer cell phones that are named most beautiful. On the list are Hitachi W42H which is a glossy phone that is available in 3 different colors; black, white and orange and 3 different snap-on accessories, Samsung SGH-E900 which caught the attention of cell phone fanatics for its fashionable look and classy design, Samsung SGH-E870 which is a handsome looking clamshell phone available in dainty colors of Chic White, Valentine Pink and Chilli Blue to tickle the fancy of girly-types, Helio Kickflip which is small but stylish and on the top spot is KDDI Penck by Makoto Saito which is a small phone that has a slick, classy design and is available in 3 colors; metal, white and black. Other cell phones on the list are not yet out in the market.
