

## Adobe Systems to showcase its portfolio of software brands at the 2008 Government & Health Technologies Conference and Expo

Adobe Systems to showcase its portfolio of software brands at the 2008 Government & Health Technologies Conference and Expo

February 13, 2008 - Toronto, Canada –WowGao Inc. today announced with honor that Adobe Systems Incorporated will be unveiling its products at the upcoming 2008 Government & Health Technologies Conference and Expo, scheduled on April 15 & 16, 2008 at the Design Exchange in Toronto, Canada. Adobe systems incorporated is well known to offer the best business, creative and mobile software solutions.

“Adobe” The name comes when one needs to mention the revolutionized perspective of the world towards ideas and information. They offer software brands which are the finest pieces of extreme excellence in approaching the creative ideas and adding some color to human imagination. It is known for entirely changing the human approach to technology and mental ability. Their range of software products is incomparable to the software brands offered by any other software company existing in the world.

The Government and Health Technologies Conference and Expo will throw light on the latest IT products and solutions that brought appreciable revolution in the worlds approach to the technology in the healthcare and public service industry, such as Web 2.0, Patient Monitoring Systems, Document Management, Business Intelligence, Mobile Data Systems, RFID Solutions, Biometrics and much more.
